

# **Salmon Feedlots Must GET OUT of Our Ocean** ***They are Killing Wild Salmon!***

**Wherever salmon feedlots operate worldwide they kill wild salmon, because they break the natural laws that control disease. This 92% Norwegian-owned industry uses the BC coast as a dumpsite, spreading devastating diseases and parasites to the wild environment. These companies are driven by shareholder obligation to grow relentlessly and will never be satisfied, removing more food from the ocean than they make and rapidly mechanizing to reduce jobs. We can no longer accept this business as reasonable.**

## **Ocean Fish Feedlots are Foolish**

The answer is a Canadian land-based industry that utilizes its wastes in a closed system to actually produce food and jobs. The fate of our coast must no longer be decided in Norwegian boardrooms. To take back our coast the voice of the wild salmon people must grow. To join the voices for wild salmon just send us a paper salmon with your name, address, email and the message,

### **Get Salmon Feedlots out of the Ocean.**

When we receive 100,000 we will take these paper salmon on a migration including Parliament in Victoria, BC and Ottawa.
